

INDUSTRY:

Oil and Gas

PROJECT TYPE:

Machinery Moving /
Specialized Transportation

PROJECT OVERVIEW:

Donald Rigging's skilled team used their experience in harsh northern climates to safely deliver six loads of heavy equipment, including two compressors weighing 246,000 pounds each, for the oil and gas industry. The snow and icy conditions made the route especially challenging, but the team handled it with constant professionalism, clear communication, expert driving, and a resolute commitment to safety.

EQUIPMENT USED:

Heavy lead truck, four 12-line platform trailers, one 10-line platform trailer, one 8-line platform trailer, push truck, two big bed trucks

PROJECT:

HEAVY INDUSTRIAL EQUIPMENT MOVING
